

## ECHOES FROM THE CHAPTER HALL

### DAY FOUR

Kandy, Sri Lanka  
04.02.2025

We are stirred from within, impelled to evolve. What is the cry that resonates in my heart? Where is the Spirit inviting me to journey? As these questions resounded among us, our sisters from various provinces stepped forward to present their reports, each using a unique metaphor to represent their current reality. Pune used the “Sound of Silence,” Central Africa portrayed “a smiling woman balancing a basket of fruits while cradling her infant.” Kolkata symbolised the province as “a human body,” while Angamaly chose the image of “a flowing river.” East Africa depicted “a cloth factory,” Trichy saw itself as “a flourishing garden,” and Tenali identified with “the vastness of the ocean.”

**What a profound and creative expression of their journey! United in love and gratitude, let us celebrate the life and mission of our sisters.**
